Help, advice and resources for parents and carers

Offer your children support and guidance with our range of online safety guides

Talking regularly with your child is the greatest tool to help keep them safe online. Talking regularly and making it part of daily conversation, like you would about their day at school, will help your child feel relaxed. It also means when they do have any worries, they're more likely to come and speak to you.

But it can also be easy to become overwhelmed with the different technology, the language that children use, the huge number of games and apps which are available and the potential risks.

Both Childnet and the NSPCC have comprehensive sections on their websites that help adults keep children safe online.
